Operating Highlights

Sales for the first quarter of 2016 (“Q1 2016”) were \$1,518.1 million, up \$240.6 million from \$1,277.5 million in Q1 2015.

Sales for the Powertrain/Driveline segment (“Powertrain/Driveline”) increased by \$252.5 million, or 23.8% in Q1 2016 compared with Q1 2015. The sales increase in Q1 2016 was impacted by:

- the acquisition of Montupet S.A. in Q1 2016;
- higher sales resulting from favourable changes in foreign exchange rates across multiple currencies and Linamar’s growing global presence; and
- significant levels of newly launched programs in North America and Europe.

The Industrial segment (“Industrial”) product sales decreased 5.5% or \$11.9 million to \$203.6 million in Q1 2016 from Q1 2015. The sales decrease was due to:

- a delay in spending of larger national customers seen in the quarter; partially offset by
- higher sales resulting from favourable changes in foreign exchange rates across multiple currencies and Linamar’s growing global presence;
- market share growth for telehandlers in North America; and
- significant global market share growth for booms.

The company’s operating earnings for Q1 2016 were \$172.1 million. This compares to \$155.8 million in Q1 2015, an increase of \$16.3 million.

Q1 2016 operating earnings for Powertrain/Driveline were higher by \$32.5 million or 29.1% over Q1 2015. The Powertrain/Driveline segment experienced the following in Q1 2016:

- improved earnings as production volumes increased on launching programs;
- earnings related to the acquisition of Montupet S.A.; and
- higher earnings resulting from favourable changes in foreign exchange rates across multiple currencies and Linamar’s growing global presence; partially offset by
- increased management and sales costs supporting growth; and
- acquisition costs related to the purchase of Montupet S.A.

¹ For more information refer to the section entitled “Non-GAAP and Additional GAAP Measures” in the Company’s separately released Management’s Discussion and Analysis (“MD&A”).

Industrial segment operating earnings in Q1 2016 decreased \$16.2 million or 36.6% over Q1 2015. The decrease in Industrial operating earnings was predominantly driven by:

- delayed earnings as a result of the spending delays of larger national customers;
- lower margins as a result of the product mix favouring new launching products such as booms and telehandlers with lower margins;
- increased management and sales costs supporting growth; and
- the result of a bad debt provision related to a Canadian customer operating primarily in the oil & gas industry; partially offset by
- higher margins resulting from favourable changes in foreign exchange rates across multiple currencies and Linamar's growing global presence.

"We are off to a solid start in 2016 with another quarter of record financial results and double digit growth," said Linamar CEO Linda Hasenfratz. "Markets are in good shape enhancing the key driver of our performance; market share growth. Content per vehicle hit new highs in every region and Skyjack continues to build market share in key products, both are doing a fantastic job of driving our great growth today and will continue to do so in the future."

Dividends

The Board of Directors today declared an eligible dividend in respect to the quarter ended March 31, 2016 of CDN\$0.10 per share on the common shares of the company, payable on or after June 2, 2016 to shareholders of record on May 23, 2016.
